

Ethiopia Sustainable Land Management-II

2014 - 2019

World Bank
Ministry of Agriculture, Ethiopia
Ethiopia

NATURE BASED SOLUTIONS

forests, other

The project's development and global environment objective is to reduce land degradation and improve land productivity in selected watersheds in targeted regions in Ethiopia. The project implemented sustainable land management (SLM) and afforestation to remedy gullies and erosion damage, while also increasing capacity for adoption of climate-smart techniques.
