

Second Ethiopia Resilient Landscapes and Livelihoods Project

2021 - 2026

World Bank
Ethiopia

NATURE BASED SOLUTIONS

forests, grassland and other vegetation, watershed management

The Second Ethiopia Resilient Landscapes and Livelihoods Project aims to improve climate resilience, land productivity, and carbon storage, and increase access to diversified livelihoods in selected rural watersheds. The project focuses on watershed restoration, climate-smart agriculture, and strengthening institutions and information for better decision-making. It supports sustainable rural development and improved environmental resilience in Ethiopia.
