

Benin: Gazetted Forests Management Project

2019 - 2027

World Bank

Benin

NATURE BASED SOLUTIONS

forests, sustainable management, indirect non-structural measures

The development objective of the Gazetted Forests Management Project for Benin is to improve the integrated management of targeted Gazetted Forests, to increase access of the main consumption cities to fuelwood produced sustainably, and to strengthen selected non-timber forest product value chains for forest-dependent communities. The project aims to promote agroforestry to reduce deforestation and forest degradation, as well as conduct vegetation/reforestation activities to regenerate degraded land.
