

Sustainable and Inclusive Secondary Cities Project

2023 - 2029

World Bank
Côte d'Ivoire

NATURE BASED SOLUTIONS

urban green spaces, forests, grassland and other vegetation

The Sustainable and Inclusive Secondary Cities Project in Côte d'Ivoire aims to improve access to green and climate-resilient infrastructure and basic services while strengthening local government capacity for climate risk-informed urban and economic planning. The project supports investments in roads, water, sanitation, solid waste management, and social infrastructure to promote inclusive and sustainable urban development.
