

# Clean and Resilient Environment for Blue Sea Project

2024 - 2030

**World Bank**

Albania

---

## NATURE BASED SOLUTIONS

inland wetlands

The project reduces land-based pollution entering Albania's South-West Coastal Belt aquatic environment. Components include wastewater treatment expansion, improved sanitation services, solid waste and plastics management, and nature-based measures such as wetland restoration, afforestation and slope stabilization, and small green infrastructure for nutrient filtration in the Vjosa River basin.
