

# Jamuna River Sustainable Management Project 1

2024 - 2029

**World Bank**

Bangladesh

---

## NATURE BASED SOLUTIONS

rivers & floodplains

The project aims to increase capacity for flood management and navigation along the Jamuna River. Components include flood and riverbank erosion management using building-with-nature solutions (e.g., permeable groins and adaptive river structures), dynamic navigation channel development that allows room for the river, financial protection of communities, and project management with a contingent emergency response
